

Milestone P2

To be done as a team, due 15th Nov 23:59

Goals

1. Create a project [GitHub repo](#)
2. Home in on a project topic
3. Intimate acquaintance with the data
4. Ensure feasibility

Submit GitHub repo

1. README (up to 1000 words) containing the project proposal
2. GitHub repo containing initial analyses & data handling pipelines - follow the structure from [this repo](#)
3. Jupyter notebook for presenting results (results.ipynb from the repo)
